

# City of Mahtomedi

## Summary of Top Five Strategic Priorities for 2024-2025

### 1. Turnback Roads Project 244 & 120

**Strategic Direction:** The City will continue to actively plan and manage the ongoing work associated with the turnback project involving state roads 244 and 120 in collaboration with the state, Washington County, and other key entities.

### 2. Fire and EMT Services

**Strategic Direction:** The City will develop a sustainable model for meeting the community's increasing need for fire and emergency medical services while continuing to provide the level of service residents expect and value.

### 3. Infrastructure Projects

**Strategic Direction:** The City will devote significant resources to assessment, planning, rehabilitation, and/or replacement of vital city infrastructure including City Hall, Fire, roads, and other community needs.

### 4. Water Sourcing and Quality Management

**Strategic Direction:** The City will develop and carry out short term and longer-term strategies to ensure healthy and sustainable water sources and water quality for community needs.

### 5. Public Information, Education and Communication

**Strategic Direction:** The City will continue to implement, evaluate, and enhance a variety of communication tools and approaches to provide effective information, education and engagement with the council and community.
